You've Got Mail

Why Not Use It Well?

COST-EFFECTIVE SOLUTIONS

Reaching your constituents shouldn't break the bank. At TLC Political, we leverage our volume—mailing millions of pieces annually—to secure unmatched buying power. We guarantee a minimum of **8% cost savings** compared to competitors, making impactful communication affordable for every office.

CREATIVE THAT STANDS OUT

Let's face it: most franked mail looks the same. We challenge the status quo with designs that captivate and inform while fully complying with the Franking Commission. Our team ensures your mail aligns with your brand identity and delivers valuable, digestible content to your constituents.

PROVEN RESULTS

We don't rely on gut instincts. We go straight to the source. TLC Political uses eye-tracking technology and focus groups to test mail before it's sent out to make sure what you're sending works.

Trusted by Members of Congress nationwide, TLC Political delivers creative, cost-effective, and impactful franked programs. **Get in touch with our team of franked experts to get started.**
